Ikon tegning. 3. forsøg

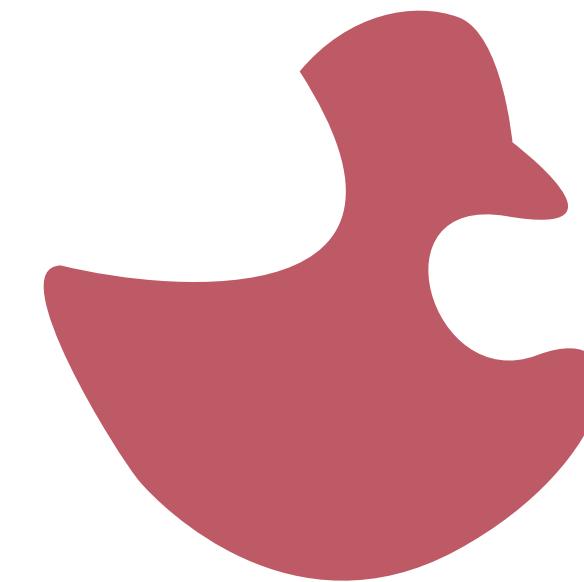

Et par nye skitser.

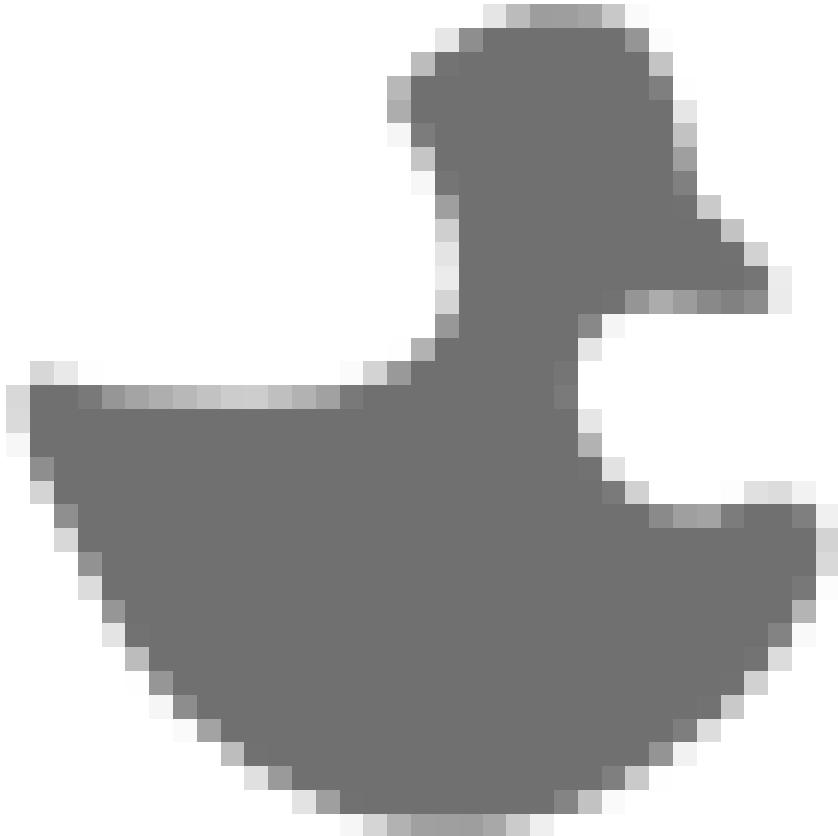

Jeg prøver at gøre det så enkelt som muligt. De to forrige var for dårligt udført og havde for mange elementer - her går vi efter noget mere simpelt og brugbart. Lidt mere "apple"

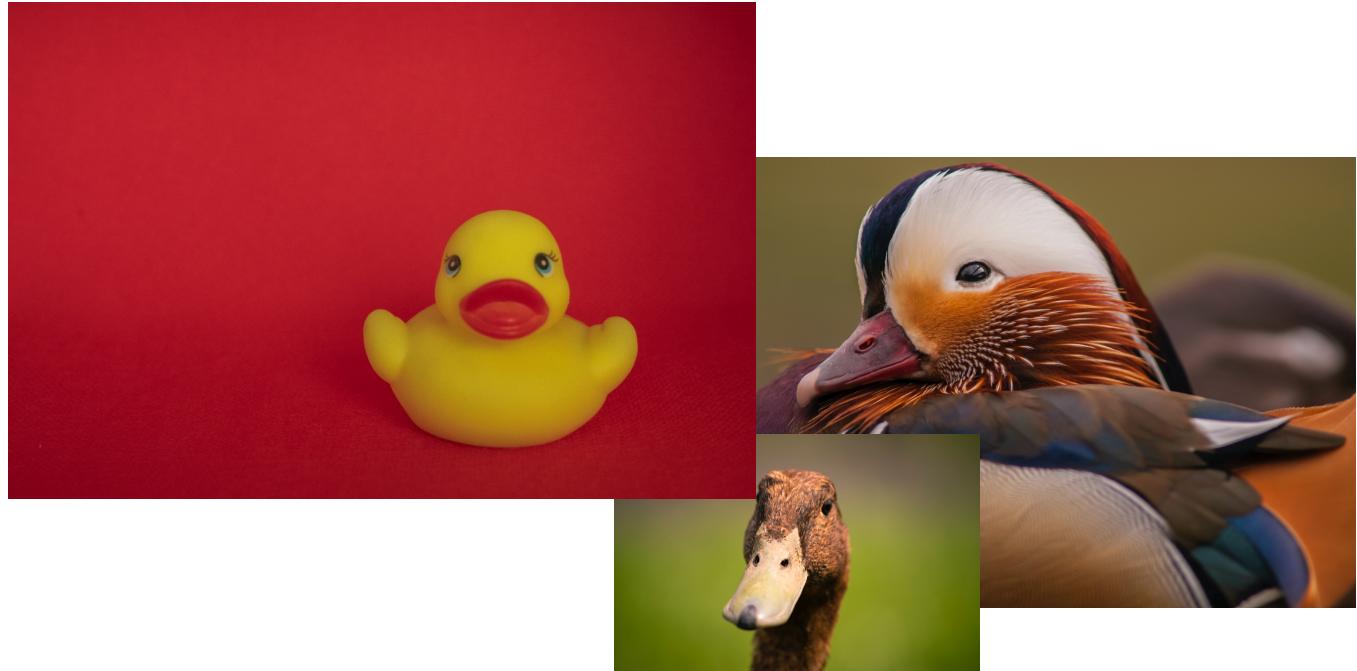

Går ud fra denne skitse.
Jeg sigter efter noget simpelt med rene linjer

Endelige
udførelse. 260

1. Find billeder af ænder:

2. Find billeder af galakser og natur

3. fjern ænder fra deres baggrund

4. Sky replacement tool og andre ting

Erstattede himlen med noget space. Kom på navnet SPACE DUCKS. Hviskede noget af titlen ud så det står "omme bag bjergene". Til sidst lidt gradiance oven på.

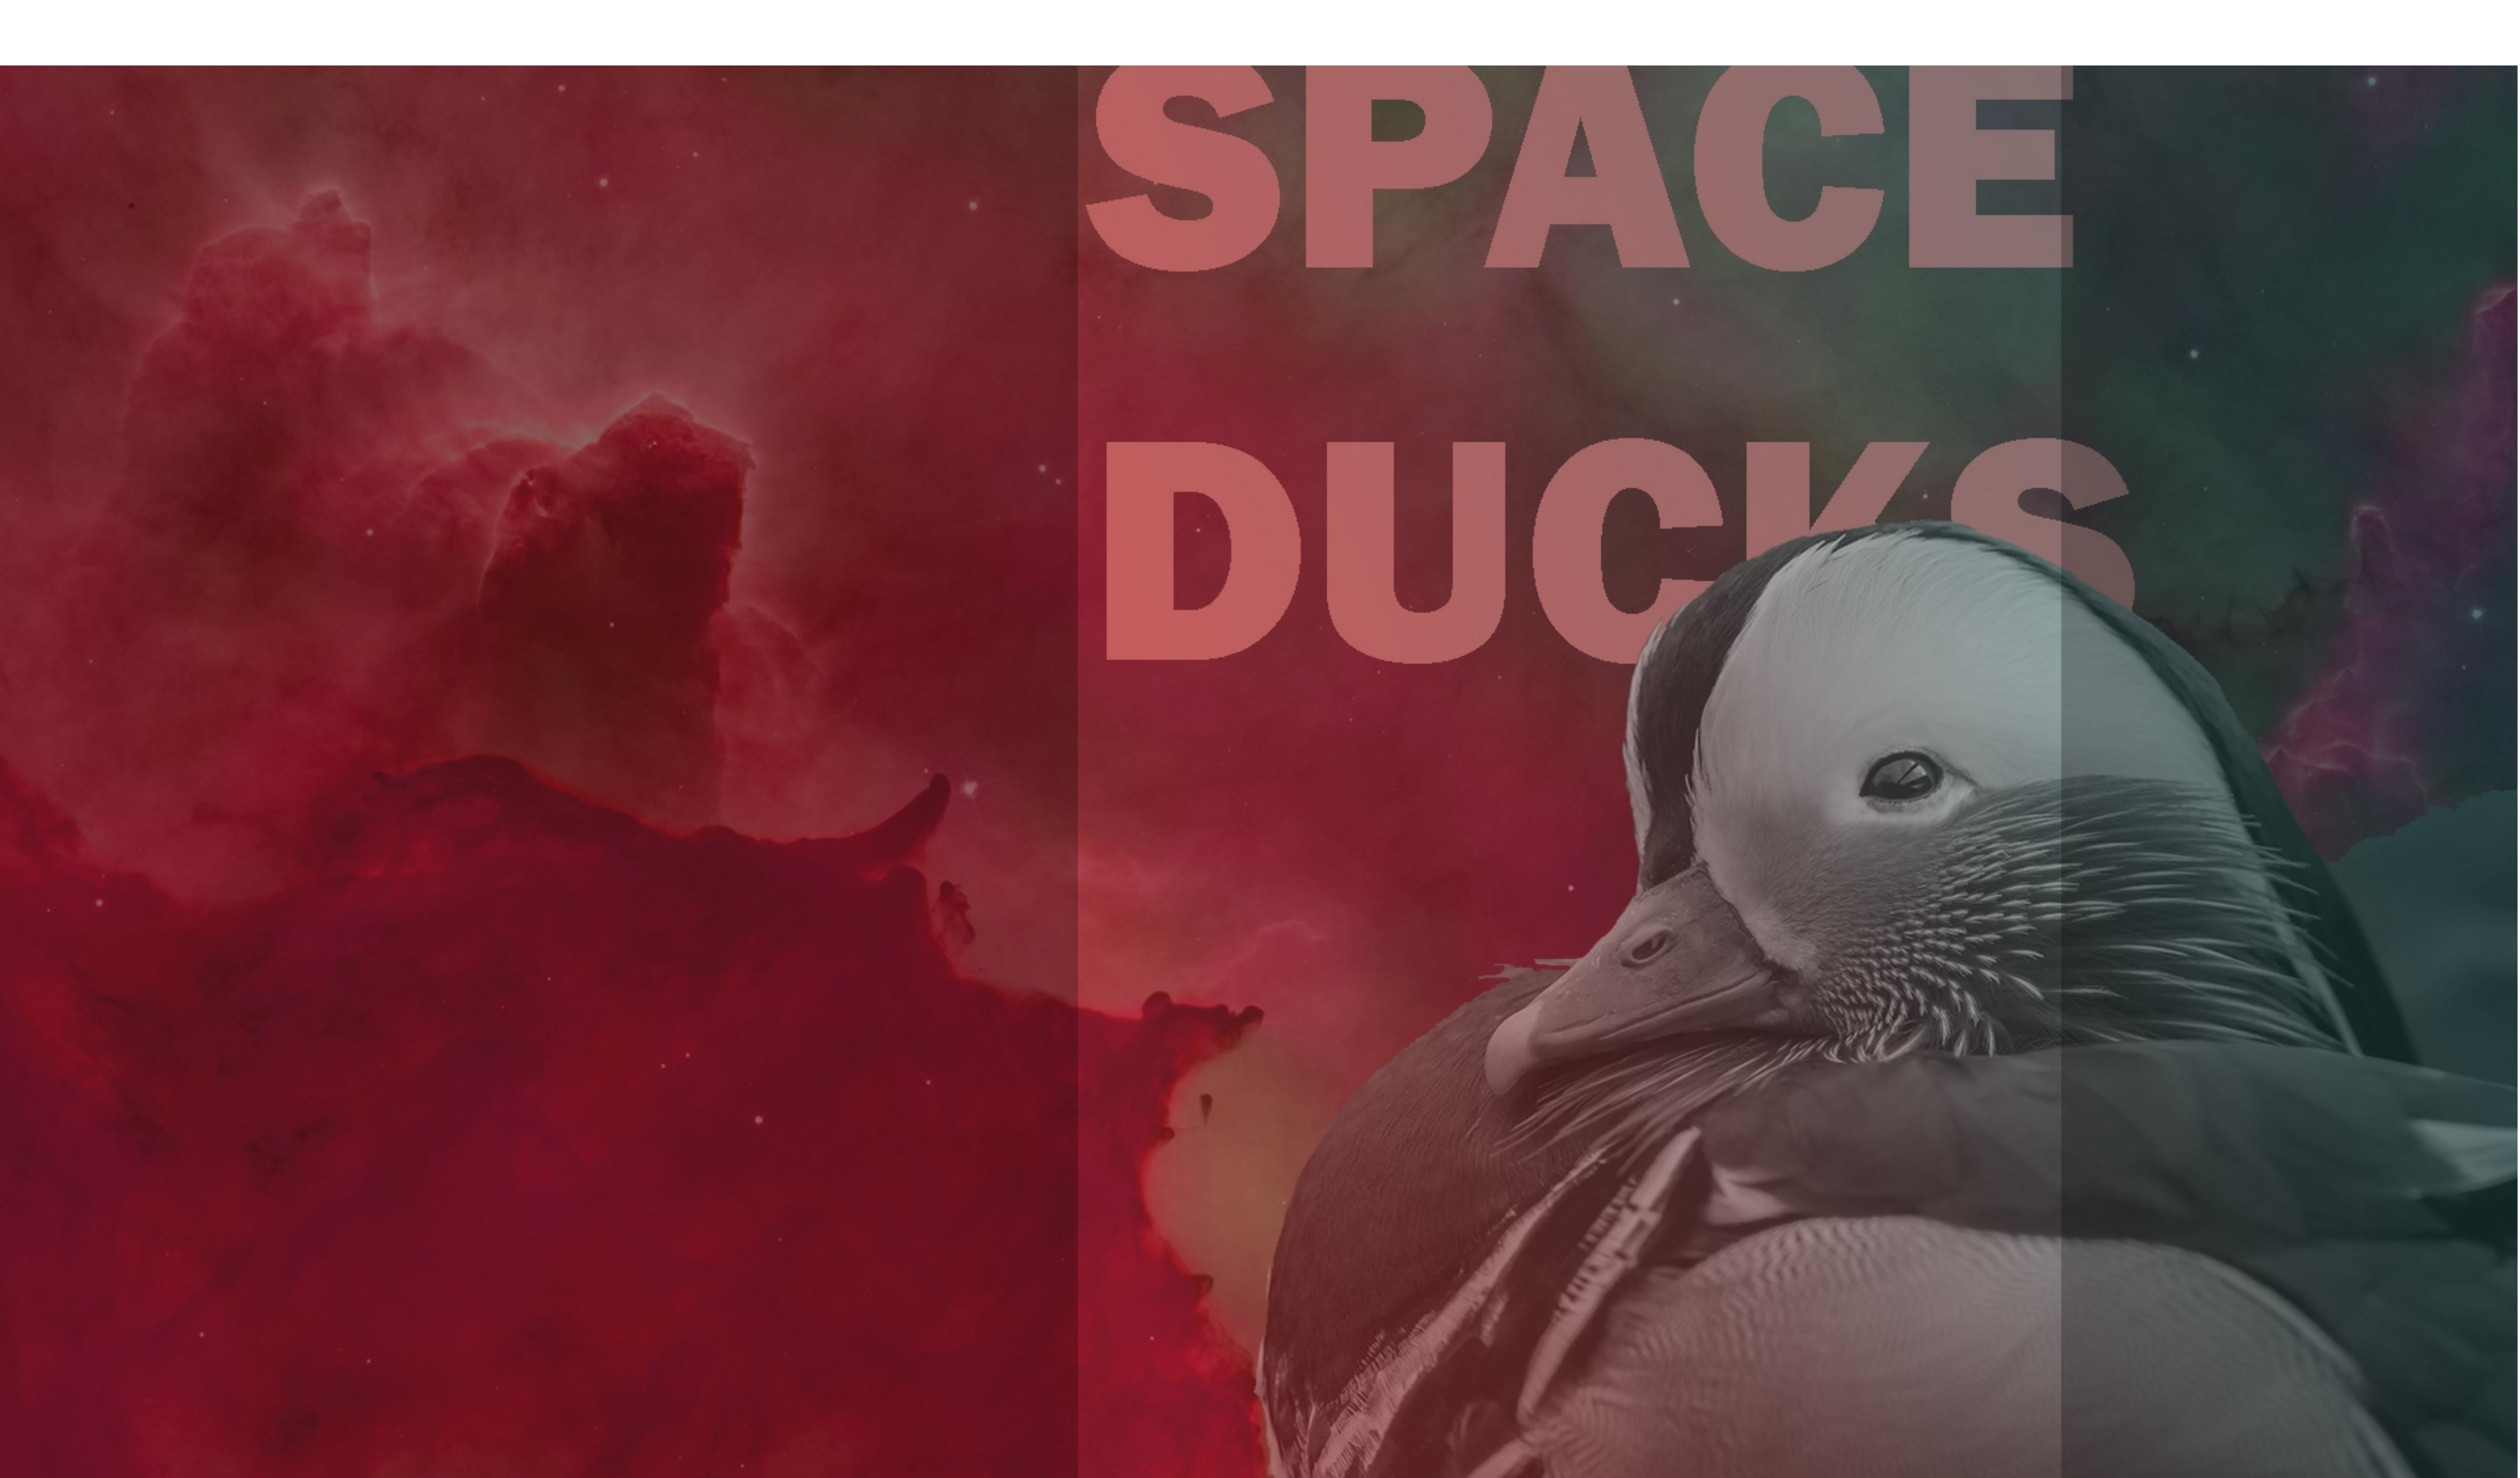

6. Lavede en til med en anden And

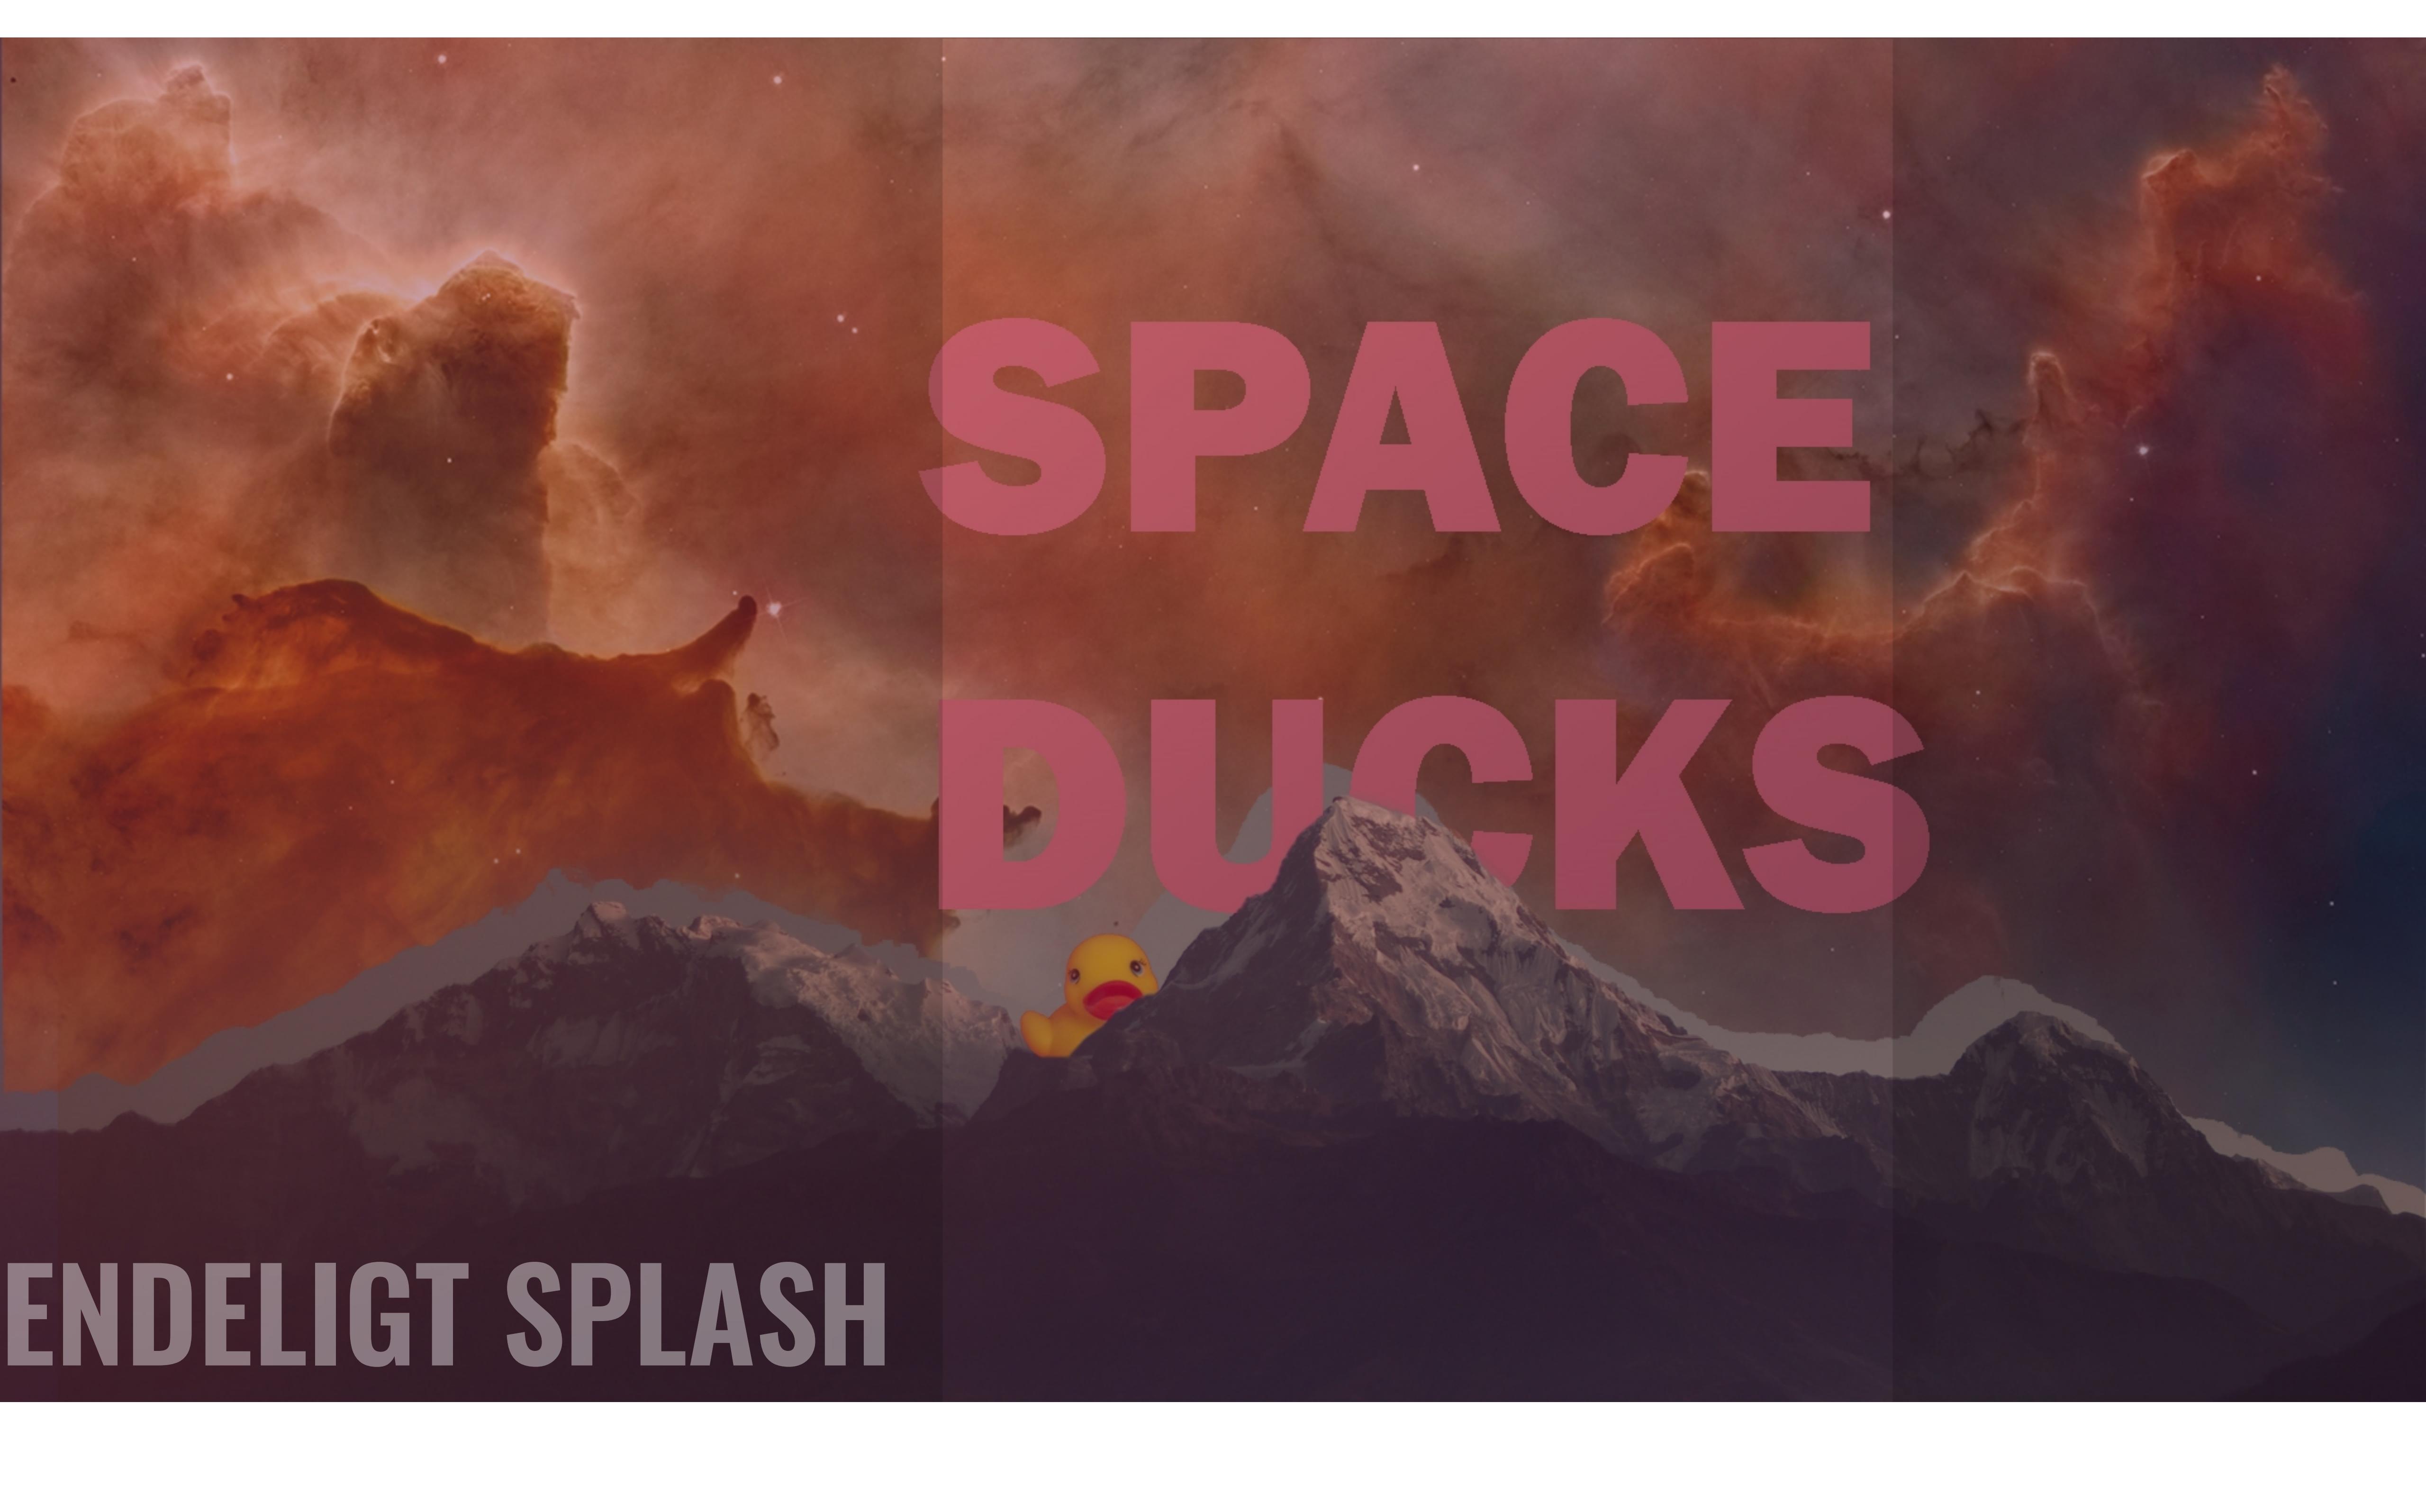

Den er lavet fra samme fremgangsmåde, bare uden bjerge og en stor and.

5. Der mangler noget...
